

We all have connections in our life.

We are connected to individuals and things in our lives. These connections all have different priorities and influence.

Do Other Connections Take Priority Over God in Your Life?

Some connections that we allow in our lives, over time, take a priority over God.

Sin starts with small things and eventually leads us completely away from God.

Ephesians 4:17–24

As Christians, we are Distinct, Different People

We act differently than the culture around us.

Light permeates the darkness, salt enhances what it touches.

We are different people because we have encountered a holy God.

Our Change Happens Because of Jesus

Jesus changes everything!

When Jesus changes you, everything changes!

Change Requires Putting Off Our Old Self

When we are changed by Jesus, we need to put off the things that defined who we once were.

When we are changed by Jesus, we are set free from things that once kept us in chains.

Because we are free, we are called to say “Bye Bye Bye” to the old things of our past.
