

# We all experience storms in our lives.

Storms have the ability to shift us. God doesn't orchestrate every storm, but He does conduct them.

## In the Presence of the Storm, is also the Presence of Promise

There is a promise to never leave your or forsake you. For God to be with you until the end of the world.

# The Presence of the Storm Does Not Negate the Presence of God

Psalm 107:28-31

#### God Hears Us in the Middle of Our Storms

In the middle of the storm, keep your voice.

Speak louder over your situation. Speak louder over your circumstances.

Speak louder so your situation and circumstances hear your declaration to God!

### **God is Present in Our Storms**

God is present in your storm.

No matter where you go, He goes with you.

We think we can't see Him at work, but it is often because we can't see Him due to everything going on around us.

## On the Other Side of Your Storm You Will Praise God

It may not feel like it now, but on the other side of your storm, you will praise God.

You will discover the purpose of the storm, and see the result of it!
