

GROWTH

Growing can be painful.

It's painful because it stretches us beyond what is comfortable.

It can be uncomfortable because it requires more of us.

Exodus 18:13-23

Moses and Jethro - a conversation between family

The work that Moses was doing was not good.

It wasn't good because of what it was, but rather how it was being done.

Moses was carrying a heavy load.

Jethro says to distribute the load.

If you want thrive in life, you need other people in your life.

As a church, we need to bear the burden together.
